

**Massachusetts Baseball Umpires Association  
Fee Structure Sub-Committee**

At this past Sunday's (9/28/08), MBUA Meeting an issue was brought to the floor concerning fee structure and the prevailing problems of transportation costs. Discussion of the matter led to a motion being made to study the possibility of taking a proactive approach to addressing the problem.

Motion: "Assemble a sub committee to speak with other sports state boards to talk about fee structure and the effects of fuel / transportation costs on officials"  
Evans / Dietlin: Passed

It was then asked that the Secretary / Treasurer e-mail the state wide membership seeking volunteers to serve on the sub committee. Mike Evans (GBUA) will Chair the sub committee.

Upon receipt of this notice please poll your memberships for committee members, as many will be needed, to canvas as many local sports officials associations as possible. Finding a solution to the rising costs of transportation for all officials in the state of Massachusetts is an issue that 3% increases recommended by the MIAA (although they, the MIAA, say that fuel costs are factored into the 3% increase) will not address.

Anyone wanting to assist in enabling the motion presented can reach Mike Evans directly to begin the process. Mikes' contact information can be found at the bottom of this notice

Thank you for your diligence and devotion.

Respectfully,

Bryan Andrade  
Secretary / Treasurer, MBUA
